Evans,

I just wanted to say "Thanks!" again for helping me to bridge the gap between jobs. The information and techniques you shared with me were extremely practical and informative. Through the various skill assessment and practice sessions, I was able to gain valuable information and insights about myself, as well as, how to meld my background in finance and marketing into tangible personal assets.

In addition, your humorous, comfortable and caring style was exactly what I needed in order to relax, learn and to regain my confidence. The feedback I received from you during our sessions was very constructive and always positive!

Thank you for sharing your experience, knowledge and perspective with me. And thank you for being such an accommodating and caring individual.

Best wishes for your continued success
